Echelon Industries, Inc.
705-2 East Bidwell Street, Ste. 255
Folsom, CA 95630

Mr. Godden:

Our Company designed and provided construction inspection of the Rejuvenation/Sealing of Runway 12-30 and all asphalt taxiways on the Western Nebraska Regional Airport, Scottsbluff, NE, in 2000. BC&L Pavement Services, Inc. used RejuvaSeal, in accordance with FAA Engineering Brief 44.

The RejuvaSeal provided an excellent rejuvenation/seal of the surface and is performing very well. We feel it provides the needs for oxidized asphalt pavement surfaces and complies with the intent of FAA Engineering Brief 44.

Should you require further information, please contact me.

Sincerely,

FOR THE FIRM OF
M.C. SCHAFF & ASSOCIATES, INC.

Gene R. Acklie
